DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 30, 2006 has been entered.

Claim Objections

2. Claims 1-9 are objected to because of the following informalities:

With respect to claim 1, in line 6, replace "with the others" with --with each of the others--. Further, in line 11, replace "associated spreading code length" with --associated spreading code--. Further, in line 15, replace "least one of a corresponding plurality of user terminals" with --least corresponding one of a plurality of user terminals--.

With respect to claim 5, in line 10, replace "by at a" with --by a --. In lines 13-15, "the spreading code" lacks antecedent basis. And in line 14, replace "with the others" with --with each of the others--.

With respect to claim 9, in line 6, "the spreading code" lacks antecedent basis.

Claims 2-4 and 6-8 are objected to for the same reasons as set forth with respect to the objected independent claims 1 and 5. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 2616

3. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 1 and 9, the claimed limitation "each of the set of ... being related to a value n, the value n being an integer and being the same for each of the codes" recited in lines 6-8 is unclear. Herein, the value n is defined as an integer but what is the value n in relation to the codes. Therefore, the claimed limitation is unclear.

With respect to claim 5, the claimed limitation "each of the set of ... related to a value n, the value n being an integer and being the same for each of the codes" recited in lines 14-16 is unclear. Herein, the value n is defined as an integer but what is the value n in relation to the codes. Therefore, the claimed limitation is unclear.

Claims 2-4 and 6-8 are rejected for the same reasons as set forth with respect to rejected independent claims 1 and 5.
